U7-54436 gold metal

All paints are sold by SherwinWilliams. Trim colors are basecoat/clearcoat. JetGlo is polyurethane paint.

Kracon Aircraft - Repair Station NU3R723L aircraft refinishing - 916-645-1614

LINCOLN REGIONAL AIRPORT - P.O. BOX 163 - LINCOLN, CALIFORNIA 95648 ENTER THIS INFORMATIONAL INSERT IN LOG BOOK

DESCRIPTION OF REFINISHING PROCESS

All plastic parts of this aircraft not removed were protected with aluminum covering. Stripping aircraft was achieved using chemical stripper (methanol, ammonium hydroxide, biodegradable wetting agents & wax). Bodywork & repairs were performed following completion of strip process. Aircraft treated with alum cleaner (phosphoric acid,ammonium bifluoride, methylene glycol monobutyl ether/glycol ethers & deionized water). This was followed with aluminum conditioner (chromic acid/chromic compounds & deionized water). One coat of epoxy primer sprayed at .7 mils thickness per manufacturer specs. Two coats polyurethane paint sprayed 2.0 mils thickness, per manufacturer specs. When polyurethane basecoat has dried, design is masked out & trim colors sprayed. Three coats trim color is typical, with occasional variance for colors which are more transparent. After all colors are applied, aircraft is detailed, with decals, data plate & wingwalk (when appropriate) being applied at this time. Control surfaces are removed for rebalancing by neighboring mechanic shop. A final inspection is performed, after which aircraft is returned to service.

Repair Station No. CUXR041D 801 Airport Way Modesto, CA 95354 Phone: 209-577-6831

DATE: 2/ TACH

## **Airframe Entries**

Removed the following:

Bendix King KT76A Transponder P/N 066-1062-00 S/N 88952

Bendix King KN64 DME P/N 066-1088-00 S/N 1975

Installed the following equipment:

Garmin GTX 345 w/WAAS ADS-B in and Out Transponder P/N010-01216-41 S/N 3EG422726 as per Garmin STC SA01714WI using AML Install Manual P/N 190-00734-10 Revision 12 Dated April 2019. Connected to a 3 amp Breaker on Avionics bus. Installed ADS-B Traffic alerting light Within view of Pilot side of the avionics Panel labeled "ADS-B Traffic". All work and pairing data is done per AFS-360-2017-1 and Per FAA Memorandum, dated March 2, 2016. Install is shown to meet requirements of 14 CFR Section 91.227.

Garmin GA 35 WAAS GPS antenna P/N 013-00235-00 S/N 178113. Installed above Crew seats for GPS Signal to the GTX 345 Transponder. Installed as per STC SA02018SE-D using Garmin GPS and XM Antenna STC Install Manual 190-01284-00 Revision D. dated March 2012

Aircraft equipment list amended and Weight and Balance is negligible. A copy of the operation instructions, contained in Pilot's Guide placed in the aircraft records. Inserted FAA Approved Airplane Flight Manual Supplement in the Pilot's Operating Handbook along with Instructions for Continued Airworthiness. The electrical system of this aircraft was evaluated and equipment current draw was found not to exceed 80 percent of aircraft's generator rated output. All work was accomplished Per A.C. 20-138A and para. 15; AC 43.13-1 B chapter 11 and chapter 12 and AC43.13-2B chapter 2, chapter 3, and paragraph 36, and described Manuals listed above. Installation is shown to meet the requirements of 14 CFR Section 91.228. Performed the ATC Transponder correspondence check Per FAR Part 43 appendi (a) (c) and appendix F. All operational/functional/leak checks are good.

Removed Aircraft clock P/N MD-88P S/N D201076 and Installed Mid-Continent MD93 Digital Clock w/USB charging ports p/n 6420093-2 in existing location connec to a 3 Amp Breaker on the Main buss labeled "Clock/USB" In Accordance with Mid-Continent Install Manual 9018205 Revision E Dated Oct. 30, 2018. Removed Aircraft Cigarette Lighter and installed Garmin GSB 15 Dual usb port adapter P/N 010-02201-10 S/N 63M054089 in existing location attached to a 5 amp breaker labeled "USB" on main buss. Installed in Accordance with Garmin GSB Install Manual 190-00303-A3 Revision 2 Dated July 2019. Operational checks are Good.

Finalized all paperwork and Authorized for Return to Service

Technicians Who Worked On The Items Listed Above: John Freitas, Robert Jackson

The above maintenance has been completed in accordance with current Federal Aviation Regulations.

I certify this airframe has been inspected in accordance with FAR 91.409(f)(3), has been found to be in an airworthy condition with respect to the work performed and is approve for return to service.

Pertinent details are on file at Mather Aviation under the Work Order indicated in this logbook entry.
